EDUCATION

2021-present

PhD candidate

Disaster Risk Analytics for Society Lab, Asian School of the Environment, Nanyang Technological University

- Thesis: Equity in disaster risk analysis: Methods, metrics and policy implications (Supervised by: Assoc Prof David Lallemant)

2019-2020

MSc Urban Science, Policy & Planning

- Research Project: Motivations & Interests of Different Stakeholders in the Private Home-sharing Market: A case study of Airbnb Singapore
- Winner of the Three-minute Thesis Audience Award

2010 - 2013

THE UNIVERSITY OF MANCHESTER

- BSc (Hons) Environmental Studies, First Class Honours
- Final Year Project: Urban UV Exposure & the Effects on Human Health
- Co-founder & Publicity Officer of the Manchester Environmental Sustainability Society (Awarded Best Society in 2011/2012)

EXPERIENCE

PhD candidate — Aug 2021 - present

- Critically assessed existing disaster risk models through an equity lens, identifying limitations in conventional approaches and evaluating alternatives
- Studied how risk metrics that account for income, age, and gender inequities produce meaningfully different — and fairer — policy outcomes
- Navigated data-scarce research conditions and identified important data gaps for equity-sensitive risk modelling
- Co-authored a blogpost with the Asian Development Bank, on equity in climate and disaster risk analysis, for a development policy audience

Research Associate — Nov 2020 - Aug 2021

Asian School of the Environment, Nanyang Technological University

- Provided GIS and research support to the Disaster Analytics for Society Lab (DASL), leading to formal and informal publications [1,2]
- Recommended and procured field equipment to build DASL's field research capacity
- Established Singapore's first student chapter for mapping via the YouthMappers network
- Co-organised mapathon training sessions for undergraduate students with the Humanitarian OpenStreetMap and YouthMappers.
- Mentored undergraduate student on a semester-long research project

Assistant Manager (Geospatial Modelling) — Jan 2017 - Aug 2019

Ministry of Defence, Singapore

- Led two teams of mapping specialists to develop and implement geospatial solutions for defence users
- Co-developed a real-time ArcGIS Operations Dashboard with Esri Singapore in support of Singapore's National Day Parade 2017 & 2018
- Spearheaded digital learning and re-skilling as the Unit Digital Transformation Officer and Formation Innovation Officer
- Led a rapid mapping team in support of humanitarian aid and disaster relief work
- Managed procurement and finances for projects

Environmental Outreach Executive — Apr 2014 - Nov 2016

Singapore Environment Council

- Spearheaded and launched local and regional environmental outreach programmes e.g. School Green Day in 2014 and Asian Environmental Journalists' Forum in 2016
- Engaged 1000+ schools and journalists from 20+ countries on environmental and sustainability issues and best practices
- Conducted workshops, talks and nature trails to raise environmental awareness
- Secured over $750,000 worth of project sponsorships, and built partnerships with NGOs, government agencies and corporates
- Designed marketing collaterals and developed social media content and press releases to support programme outreach
